MVP User Stories

1. "As a Website user
   I want to be able to enter my e-mail address
   So that I can sign up"
2. "As a website user
   I want to be able to enter my username
   So that I can sign up/log in"
3. "As a website user
   I want to be able to enter my password
   So that I can sign up/log in"
4. "As a website user
   I want to be able to choose the room type i'm going to use RoomSense in
   So that I can sign up"

5. "As a website user
   I want to be able to add a room to the database with the metrics known to me
   So that I can start using this room"

6. "As a website user
   I want to be able to view the temperature change of the room in realtime
   So that I can adjust the room temperature to the recommended temperature"
7. "As a website user
   I want to be able to see the CO2 level of the room in realtime
   So that I know when I need to air the room"
8. "As a website user
   I want to be able to see the recommended humidity for the room I'm in
   So that I can adjust the humidity in the room accordingly "
9. "As a website user
   I want to be able to see the recommended temperature for the room I'm in
   So that I can have something to compare the temperature in my room to"
10. "As a website user
    I want to be able to see the recommended CO2 level for the room I'm in
    So that I can have bounds of the healthy CO2 "
11. "As a website user
    I want to be able to see a full feedback on a room's average CO2 level, acoustics,
    temperature and humidity
    So that I can adjust the room's metrics without having the RoomSense device do
    calculations again"

12. "As a website user
    I want to be able to see the average noise levels for the room I'm in
    So that I can work/study/relax with a comfortable noise level"

13. "As a device user
    I want to be able to read a RoomSense manual
    So that I can use the product in its intended way"

14. "As a device user
    I want to be able to turn on and setup RoomSense
    So that I can start using the device"
